

 Daniel A. Hershey

dhershey@hurwitassociates.com

Daniel A. Hershey provides paralegal corporate, tax, and charitable trust services for nonprofit organizations and serves as the network administrator for Hurwit & Associates' multi-user local area network (LAN). In addition, he provides computer, technical and web-consulting services for nonprofit organizations, including network setup, web site design and programming, and general hardware and software upgrade and trouble-shooting.

Mr. Hershey formerly served as a Development Associate and as the System Administrator for the Boston Lyric Opera. His responsibilities encompassed the coordination of fund raiser mailings, maintenance of the donor database, overseeing of the daily operations of a ten-user LAN, conversion to a new network configuration, user support for proprietary ticketing and development software, and the recommendation, purchase and installation of hardware and software upgrades.

Before his work in the nonprofit sector, Mr. Hershey was a staff consultant for Anderson Consulting where he worked on a conversion project for a major defense contractor that migrated a 5 million record database into an integrated and customized bill of material and work order system. Other work included similar migration projects for two major consumer products companies.

Daniel Hershey received a M.M. degree in vocal performance from New England Conservatory with academic honors in 1999, and a B.A., *summa cum laude*, from the University of Rochester in Mathematics in 1992.
